

Lift Me Up

7th Movement, Hungry for Heaven

Raise me skyward in a torrent
Energize me with your current
Rescue me from atrophy
Lift me up in harmony

Now I vow to reach up higher
Never mind the pain or fire
Break the shackles,
I take you as my Lord

Jesus Christ, be my breath,
My birthing, laughing, crying, death
Bridging chasms, spanning souls
Make incense rise from the coals

O Mighty Tree with roots so deep
Crowning with majestic sweep
Mystical Body, embrace us all
Give your strength to those who fall

Lift me up like a pearly white dove
Lift me up to my God above
Lift me up like a pearly white dove
Lift me up to my God above

Raise me skyward in a torrent
Energize me with your current
Rescue me from atrophy
Lift me up in harmony

Lift me up like a pearly white dove
Lift me up to my God above
Lift me up like a pearly white dove
Lift me up to my God above

Raise me skyward in a torrent
Energize me with your current

Rescue me from atrophy
Lift me up in harmony

Now I vow to reach up higher
Never mind the pain or fire
Break the shackles, break the sword,
I'm taken by you, Lord!
